2013 SOUTHEAST DISTRICT SPRING FIRE SCHOOL ALCESTER FIRE DEPARTMENT ALCESTER ELEMENTARY SCHOOL APRIL 28TH, 2013

Mission Statement: To promote safety and integrate the efforts of Local, State, and Federal agencies in structural and wildland firefighting practices.

Class 1 – Aftermath of a disaster, the first four hours

Don't get caught unprepared, disasters can strike at any time and in any jurisdiction. This class is designed for Incident Commanders and City/Municipal Leaders in identifying needs and establishing priorities following a large scale natural disaster.

Instructor is Todd Lowe – 3 hrs – no class limit – (morning session)

Class 2 – IQS – Incident Qualifications System

Having problems with your IQS software? Wonder why you need to use it? Well, this class will help you use the program, record your firefighter's records. Keep your firefighters training up to date and much more. This is a must class that a representative from your department should attend.

Instructor is to be determined – 3 hrs – no class limit - (Afternoon Session)

Class 3 – Agriculture Extrication

This class will provide classroom information and hands-on training of current practices and methods of rescue/extrication of victims of farm equipment entrapments.

Instructor is Russell Heggen – 6 hrs – class limit of 25.

All students must have full structural or rescue PPE including eye, hand and feet protection (no street shoes or tennis shoes). EMT accredited hours.

Class 4 – SCBA Training & Smoke House Exercise

The class will include basic classroom instruction and practical application of learned skills meeting the requirements of NFPA 1001. The hands-on portion will be completed using theatrical smoke within a facility, and include basic search and rescue techniques. All students must have full structural PPE and SCBA.

Instructor is Steve Hermanson – 6 hrs – class limit 30

Class 5 – Properties of LP Gas & Live Fire Exercise

This class will provide information as to the properties of LP Gas and it's associated hazards. The live fire exercise will provide information and build confidence on how to safely approach, control, and extinguish a fire involving and LP Gas leak. Instructors are Mike and Monty Koopman – 6 hrs – class limit 30 – <u>All live fire exercise participants must have full structural PPE meeting NFPA 1971 Standard – NO exceptions.</u>

Class 6 – Grain Entrapment Rescue Procedures

This class will review the hazards of flowing grain, victim survivability, how to access and free a victim, how to enter a grain bin safely, preplanning at local grain facilities, hands-on evolution and demo of the rescue tubes and what to do if you don't have a rescue tube. The class will involve basic ropes and knots skills, so refresh you skills prior to the class.

Instructor is Jason Anderson from Hawarden IA -6 hrs - class limit 30 Coveralls or wildland PPE will be adequate with eye, head, and hand protection - **NO** loose or torn clothing - lace up boots and dust masks recommended.

Class 7 – **EVOC** (Emergency Vehicles Operation Course)

The morning classroom session will cover applicable laws and safety issues while operating and emergency response vehicle. The afternoon session will involve driving your vehicle through an obstacle course.

Instructor is Matt Anderson from Hawarden IA – 6 hrs – no class limit

Class 8 – <u>Structural Firefighting Practical Skills Testing</u>

An evaluation team will be available for firefighters needing to complete the practical skills testing for their SD Certified Firefighter Certification. **All participants must be 18 years of age.** Participants <u>must</u> have their completed Student Attendance Card (Blue Card) from their certified firefighter course with them and provide it to the evaluation team.
